## SUMMARY

As a Frontend Developer, I have hands-on experience in building efficient and reliable web applications using **Angular**, **TypeScript**, and modern frontend technologies. I place strong emphasis on writing clean and readable code, optimizing user interfaces, and collaborating effectively within a team. By following **SOLID**, **DRY**, **KISS**, and **YAGNI** principles, my goal is to develop scalable, secure, and long-term maintainable solutions.

## SKILLS

- **Core:** HTML5, CSS3, JavaScript, TypeScript, Angular, React, Redux, Tailwind CSS
- **Additional:** Angular Material, PrimeNG, Ant Design, Bootstrap, SASS, Git
- **Soft Skills:** Adaptability, Problem-Solving, Teamwork, Working Under Pressure

## WORK EXPERIENCE

### Software for Business Development

Tashkent, Uzbekistan

Frontend Developer

December 2024 – Present

- Developed and deployed multiple corporate websites and web applications: **SBD Website**, **SBD Store**, **Usta.uz**, **Eleven Water**, **Asman Group**, **Durable Development**, **Cosco Engineering**, **Luxline**, **Asvad Group**, **Cosmo Cargo**, **Laminox**, **Calinart**, **Khatdecor**.
- **Calinart** — online learning platform. Built user panel with course purchase and viewing options. Implemented admin panel for course management, user control, and payment system integration.
- **Eleven Water** — drinking water delivery platform. Developed user interface, order flow, and REST API integration. Ensured responsive design and optimized performance.
- **Khatdecor** — automated system for an MDF manufacturing plant. Collaborated in a team project contributing to login/authentication, product management, warehouse, sales, payment systems, and reporting modules.
- Technologies: Angular, TypeScript, Tailwind CSS, REST API, RxJS, i18n (ngx-translate), Telegram WebApp, Yandex Maps, Google Maps.

### Innasoft Digital Service

Tashkent, Uzbekistan

Frontend Developer

October 2025 – Present

- Developed and maintained multiple production-ready web applications and enterprise systems using **Angular**.
- Implemented real-time features using **WebSocket** for live data updates, system status monitoring, and notifications.
- Integrated frontend applications with the **MyID (OneID)** system to manage user data and enable secure system-to-system communication.
- Worked with **Electronic Digital Signature (E-IMZO)** functionality, including document signing, signature verification, and building user-friendly UI flows.
- Designed and developed applications using a **modular Angular architecture**, improving code reusability and long-term maintainability.
- Managed application state using **RxJS** and **BehaviorSubject**.
- Integrated **REST APIs**, handled data fetching, form submissions, and centralized error handling.
- Built responsive and high-performance user interfaces using **Tailwind CSS** and modern UI/UX practices.
- Implemented multilingual support using **i18n** and **ngx-translate**.
- Collaborated closely with backend developers and designers in an **Agile team** to deliver scalable and user-friendly solutions.
- Developed and deployed corporate websites and secure **CRUD-based management systems**, strengthening practical experience with state services integration.

ADDITIONAL KNOWLEDGE

- Authentication and authorization: JWT, role-based access control.
- Maps and third-party integrations: Yandex Maps, Google Maps, Telegram WebApp.
- Clean Code and frontend architecture best practices.

CERTIFICATES AND TRAINING

**Frontend Development Program**  
Najot Ta'lim

November 2024  
Tashkent, Uzbekistan

- JavaScript: map, filter, reduce, forEach, find, some, every methods.
- React Hooks: useState, useEffect, useContext, useReducer, etc.
- Practical experience with TypeScript, Tailwind CSS, Bootstrap, SASS.
- Projects: Uzum Market Clone, YouTube Clone, Movie Ticket Booking App.
- Agile methodology, code review, and team collaboration.
